

Princeton Lectures and Harvard Process on Soviet Libraries in Moscow
By Joseph Seguirra

Inteoduction
By Shomit Sirohi

Perhaps (as latterly and readerly Soviet lines go) we need a heroic intervention into the big Other of history which suspends itself into a tailism which is the subjective breaking of the chain to in fact retroactive will which is antoss, or even the correct discipline - all of this is in three essential theses - Mao Zedong on Red Book to Charu Mazumdar and Kanu Sanyal (update 2024, this is what they call ass kicking in our style),

- I. Masses are oppressed (tales of oppression here become like crying because of emotions in violence gaining Princeton text publishing imaging problems - actually it is utopian declarations)
- II. The Princeton format maintains that in fact black people cannot join universities in America being my attempt to get these lectures which I cannot develop because they are stolen recordings selected by Soviet Union in the Moscow Library which go to Princeton and Harvard also in Bolivia and are rare.
- III. Red Book here develops -

Dogmatism is the essential thesis of a leader - political voluntarism should understand -

It is correct to rebel against the reactionaries.

This then is violent attack on the fascists.

It is to climb to a stage and hammer the enemy.

(1978 quote on Mao and the future of Communism)

Introduction
By Slavoj Zizek

Abstract the Turkish joke to a global BJP - this is our joke which then is the process of developing Hindu dominance in the law - then do divine violence to it as joking - which is an encounter - bursting the bubble of speculative finance and creating correct economics again.

I call this abstractly the easiest victory of Communism by Paul Cohen.

Now in Cuba I recently argue, I am aware of fascism of Batista Miami - but Sirohi knows how to play ZFC in fact basketball.

He means just keep Freudian deconstructive jokes going in Soviet Union style.

Trotsky is not dramatic - he is tragic.

He means that women are dying in Soviet senses to have sex with Sirohi - he is a tragic lover who is found his women, we are free.

Trotsky means all of them are tragic in love with women - they all are free.

I call this Sirohian Red Book written in theory of Incontinence and German idealism.

- I. Red Book by Mao Zedong and Fidel Castro's Lecture in Moscow (with Liberals against Soviet Union by mistake of address and planning which is Cuba's problem with Party Line and bureaucratic apparatus and developments of economic crisis and depression formats of economic models we call Basketball instead)

Fidel Castro steps up to the podium, fully aware of the liberal crowds and anti-Communism.

Three steps in Sirohi to follow the Red Book (update, Deterior, 2024)

In 1998 I argued that three steps is the whole Red Book which Mao writes for Cuban principles of revolution and democracy.

- I. The process of developments in economics.
- II. The process of Trotskyist stylistics called pointing out things.
- III. The simple Jewish intellectual tradition or Quranic letters, or even Vatican Christian Paulinian work of love which is a moving force of Universal truth though in a small Goa Christian village format which in turn is wronged all over by the Christian fascism which develops within it against the true Paulinians which has affected Europe.

In 2024

- I. I re-iterate the steps now that Sirohi is older. About 21 and still young after growing about 32 which proves he is as young as a student but appears oldest, like a leader in his presence, which is the greatest revolutionary which is though a Paul type of man, who discounts the revolution for simple gestures of Torah truth.
- II. Hebrew labour and intellectual labour is here worked on day and night which creates an intellectual spirit in Cuban revolutionary camps which means the intellectual process in Cuba is reflected on by the chosen people of Judaism as in fact abstract in the Jewish sense and so in fact a small Hebrew community of black and white people - all of whom are a laboring mass freed to liberalism - which I meant was like Goa though with a lot of crimes.
- III. Messiah - the process of simple Hebrew truths that free the people, and is done by passing knowledge of how the Hebrew few and families are with a passport and follow Deterior app security which helps identify.

This then is the meaning of an Act in politics and psychoanalysis - that one can call it Mother-Father and daughter in Cuba - which is mostly women with sharp Europeanised black and white looks which is the initial revolutionary history I have documented.

The simple Torah truth has freed Cuba with a basketball joke we now commence – I have already passed the line with the Dalit Ambedkarite lawyer called Manuel Ortega's brother in fact – who walks as a long joke with him in the nearby colony in Delhi's Sarita Vihar.

Thank you, Sirohi, you are truly a revolutionary with personal insights – produce the Red Book for the future, we like this development to be without Princeton fascism.

Lectures by Soviet Union Moscow Meeting with Leon Trotsky from the Hospital awakened and walking in Turkish attire with the Soviet Union.

In 1995

- I. I am wearing Turkish attire.
- II. I am with CPSU.
- III. We are joking on how the Prophet kicks the ass of an automaton called fascism.
- IV. I call it royal ass kicking, and I call it divine violence.

I call this the style of in fact basketball comments. I call it a style called conceptual negativity, and also Dogmatic Fichtean with Hegelian idealism for the law. Dido dacto – fuck off fascism.

I call this the Red Book because in fact – if one dramatizes the play fools which develops in the conjuncture of a fascist period imagine the key role to be marginal – that he wants to be in history, but in fact he is the major role which is hilarious and wins in fact the whole crowd for a long laugh in his pick up of in fact what becomes genius.

A Soviet play under fascism, and then of course underground contemplation and philosophical preparation – all of this is Red Book.

Just keep studying and joking. I call this divine violence.

Lecture by Mao Zedong on Red Book – why Trotsky is Correct there is Power and Authority as Dogmatic Communism

- I. That automaton is just a machine, a war machine.
- II. I destroy this stuff.
- III. I call this individual grace and retroaction.

Lecture in 1998 by Che Guevara on Radio with CIA, recorded by CIA in writing stolen by Princeton

- I. I develop history as the developing of mass protests.
- II. It fuses and wins.
- III. This is splace and offsite.
- IV. Trade Union is itself the victory of Communism.

- V. I call Trotskyism far left in this sense of pushing the mass line to insurrectional Paris Commune format party - till the TU produces a wild-cat dynamic.
- VI. I call this also with divine violence on the fascists.
- VII. I am humanist then, and shelter the party of all.
- VIII. I preach Paul's law in epistles and pristine Bibles and Qurans, even simple Torah.
- IX. The simple truth of Torah - protect Hebrew small Cuba and destroy the fascists.
- X. I call it the power of dogmatism.
